Remarks

By this amendment, the specification has been amended pursuant to the requirements of MPEP §714.16. In particular, the specification has been amended to reflect to the issuance of the patent application as U.S. Patent No. 6,681,107 and to correct the application serial number of the parent application.

Moreover, attached herewith is a supplemental declaration signed by the inventor, Michael D. Jenkins, listing the applications with which the instant application claims priority thereto.
